AIR INTERLOCK VALVE WITH ELECTRONIC LIMIT SWITCH

EMCO WHEATON

A Gardner Denver Product

FEATURES & BENEFITS

The Emco Wheaton F0567 Air Interlock with Limit Switch ensures correct vapor recovery procedures during loading. The limit switch allows bottom loading to start only when the vapor recovery hose has been positively connected to the vapor recovery adaptor.

- **Prevents loading** if the vapor coupler is not connected
- **Provides** an electronic permissive connection to the loading rack monitor via the overfill prevention system
- **Loss of connection** stops the loading rack from pumping
- **Brakes** are locked while loading by incorporating the limit switch into the air interlock
- **Viton®** seals as standard
- **Stainless steel** support plate
