

F0567 | VAPOUR ADAPTOR AIR INTERLOCK VALVE

| F0567121 Vapour Adaptor Interlock shown with position switch fitted

STANDARD VARIANTS

- * F0567-121 Viton seals for use with Vapour Adaptor (includes 2 x 4mm pif)
- * F0567-221 Viton seals for use with Vapour Adaptor (includes 2 x 6mm pif)

FEATURES AND BENEFITS

- * Strong composite body.
- * Electrically continuous.
- * Stainless steel operating shaft.
- * Reversible mounting for different height requirements.
- * Adjustable button.
- * Different end buttons are available to suit the application.
- * Viton or buna seals.
- * Brass thread inserts for air fittings installation.
- * Position Switch Kit can be supplied as an optional extra.

The F0567 Air Interlock is designed for installation on API adaptors, vapour adaptors or on its own when it is used for interlocking vehicle brakes or other pneumatic components with a guard bar or door actuation.

A Position Switch Kit can be supplied as an optional extra, which can be interlocked to the HLCO socket's earth facility to ensure that a vapour coupling is fitted before loading is permitted.

Composite material is utilised for the body providing strength and durability. The composition includes a stainless steel lattice to ensure electrical continuity for the normal safety precautions against static electricity.
