BUSINESS**

Electronic BiRotor Plus

- Industry-leading positive displacement (PD) flow meters. Accuracy of 0.075% & repeatability of 0.01% or better over 30:1 flow range.

BV88 Digital Control Valve

- Provides precise flow rate control & batch delivery of fluid products when used with an electronic batch control device.

MultiLoad II

- Suite of products that offer the ultimate combination of usability, features & scalability. Powerful stand-alone operation, seamless integration with automation systems.

TMS6 Terminal Management System

Customer Value is Our Priority

- User-friendly & accessible user interface
- Extremely reliable
- Low cost of ownership & operation
- Ease of implementation - fast, flexible configuration
- Provides full control over operations - also remote
- Different configurable user profiles with configurable rights (operators, dispatchers etc.)

**Master Meters ■ PD Flow Meters ■ Turbine Flow Meters ■ Hand-held Gravity Meters
Batch Controllers & Pre-Sets ■ Load Rack Control**

Soliflo delivers instrumentation and flow control solutions to industry sectors throughout Sub-Saharan Africa:

**Chemical ■ Oil ■ Fuel ■ Gas ■ Cryogenic ■ Food & Beverage ■ Pharmaceutical
Cementation ■ Aviation ■ Energy ■ Mining ■ Agrichemical & Fertiliser**
